

Jaiwant Karrun SA

AI-Powered Full Stack Developer

[+91 87541 59934](tel:+918754159934) | jaisam710@gmail.com | [LinkedIn](#) | [Github](#) | [LeetCode](#) | [HackerRank](#) | [Portfolio](#)

Profile

Aspiring AI and Data Science professional with expertise in MERN Stack Development, Generative AI, Machine Learning, and Data Science. Proficient in building scalable full-stack applications and AI-driven solutions using modern technologies. Passionate about solving real-world problems through innovation and continuous learning, delivering impactful, user-centric software. Actively developing AI-powered products by transforming innovative ideas into practical, scalable, and production-ready solutions that consistently deliver measurable business value.

Education

KPR Institute of Engineering and Technology, Arasur.	Coimbatore, India
Bachelor of Technology - Artificial Intelligence and Data Science	2024-2028
CGPA: 9.13	
Shri Nehru Vidyalaya Matriculation Higher Secondary School, R.S. Puram.	Coimbatore, India
SSLC (Grade 10) – 97.2%	2022
HSLC (Grade 12) – 91.6%	2024

Technical Skills

Programming Languages: Python, Java, C, JavaScript, TypeScript, SQL.

Generative AI: LLMs, Ollama, LangChain, Hugging Face, RAG, Sentence Transformers, FAISS (Vector Database).

AI/ML: TensorFlow, PyTorch, Scikit-learn, Keras, OpenCV, NumPy, Pandas, XGBoost.

Frontend Technologies: HTML, CSS, ReactJS, Tailwind CSS, Framer Motion, Material UI, Vite.

Backend and API Development: Node.js, Express.js, FastAPI, RESTful APIs.

Databases: MySQL, PostgreSQL, MongoDB, Redis, Firebase, Supabase.

Visualization and Analytics tools: Google Colab, Jupyter Notebook, Power BI, Tableau, Chart.js, Matplotlib, Seaborn.

Deployment (DevOps): Vercel, Netlify, Render, AWS, Docker, Postman, GitHub Actions, Railway, Zeabur.

Core Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs).

Soft Skills: Problem Solving, Communication, Time Management, Team Collaboration, Adaptability.

Professional Experience

Full Stack Intern – Yaane Technologies **Dec 2025 – Jan 2026**

Notification Rule Builder:

- Designed a rule-based alert management system handling 500+ automated notifications.
- Built a scalable backend with 3+ REST API endpoints and database integration to support over 500+ automated notification workflows.

Reddit Web Scraping Tool:

- Engineered a Reddit web scraping tool that collected over 10,000 posts and comments for analysis.
- Automated trend and sentiment analysis pipelines processing over 10,000 scraped posts using Python APIs.

Data Collection Executive Intern – Book My Venue **March 2026 – May 2026**

- Performed data collection, cleaning, and preprocessing on 10+ real-time datasets, then visualized key trends in Power BI during an internship at Book My Venue.
- Cleaned and analysed 5,000+ records using Power BI, reducing manual reporting time by 30%.

Artificial Intelligence Intern – Infosys Springboard Internship 7.0 **June 2026 – July 2026**

- Completed a 2-month Artificial Intelligence internship, applying Machine Learning, Deep Learning, and Natural Language Processing concepts to solve 3+ real-world problem statements.
- Developed 2+ AI-based projects using programming, data analysis, and intelligent algorithms, enhancing decision-making and automation workflows.

Projects

Collaborative Kanban Board – Real-Time Task Management Platform:

Tech Stack: React, Node.js, Express.js, MongoDB, Socket.IO, JWT, Responsive Design.

Built a full-stack Kanban board with real-time collaboration, drag-and-drop task management, and secure JWT authentication. Synced task updates live across 50+ concurrent users per board using Socket.IO-based WebSocket events.

Idea-to-Startup Predictor – AI Startup Validation Platform:

Tech Stack: React, Node.js, Express.js, MongoDB, API Integration, JWT Authentication.

Built an intelligent platform that predicts & evaluates the feasibility of startup ideas using AI by analysing market demand, competition, scalability, and potential business viability.

Processed 1,000+ startup idea submissions, integrating AI-generated feasibility scoring into a full-stack MERN application.

SmartPrep AI – AI Academic Assistant:

Tech Stack: React, FastAPI, MongoDB, LangChain, FAISS, Ollama, RAG.

Built an AI academic assistant featuring document-aware AI chat, intelligent question paper generation, and AI-powered answer evaluation using RAG and local LLMs.

Indexed 2,000+ pages of course material with FAISS, cutting manual grading time by 70%.

RoadFix System – Road Maintenance & Repair Tracking Platform:

Tech Stack: React, Node.js, Express, MongoDB, JWT Authentication.

Built a web-based road maintenance platform for reporting infrastructure issues, tracking repairs, and managing workflows through role-based worker and administrator dashboards.

Streamlined issue-to-resolution tracking for 500+ reported infrastructure issues across 100+ worker/admin accounts.

Certifications

- **OCI Certifications (Data Science, Generative AI, AI Foundations)** – Oracle.
 - **OCI NetSuite Certified Financial Associate** – Oracle.
 - **GitHub Foundations** – GitHub.
 - **MongoDB Associate Developer Certification** – MongoDB.
 - CodeSignal – Full Stack Engineering with JavaScript.
 - CISCO Networking Academy – HTML Essentials.
 - NPTEL – Responsible & Safe AI Systems (Elite).
 - NPTEL – Data Analytics with Python (Elite + Silver).
 - Coursera Certifications – Meta Frontend and Backend Development.
 - Infosys Certifications – Learning Full Stack Development.
 - Samsung Innovation Campus Coding & Program Completion Certificate – Samsung.
 - Learn Java Certifications – CodeChef Platform.
 - SQL Certifications – HackerRank.
-

Achievements & Position of Responsibility

- **Secured 1st place** in **Thooral Hackathon** at **PSG College of Technology**.
- **Won 3rd place** in **Code 'O' Clock Hackathon** at **Coimbatore Institute of Technology**.
- **Achieved 3rd rank** in Semester 3 based on overall academic performance – **Relative Grading**.
- Best Prompt Innovator in Prompt Engineering (2025).
- Ignitron Software Development Club – **Technical Team Coordinator**.
- Honoured with the **Class Representative** Coordination Certificate.
- **Executive Member** of IEEE, participating in technical events and professional activities.
- **Placement Coordinator** – Coordinated placement activities between students and recruiters.
- Qualified for multiple competitive hackathons based on innovative project ideas.
- Actively participated in national-level hackathons, coding contests, and technical workshops.
